Simon Beasley
Network & Parking Services Manager
Reading Borough Council
Civic Offices
Bridge Street
READING
RG1 2LU

29 September 2016

Dear Simon

Cooperative Intelligent Transport Systems

Reading Buses is fully supportive of Reading Borough Council's submission to the Department of Transport under the Cooperative Intelligent Transport Systems competition. The Company has a long track record in providing a platform for testing new transport technologies and systems to enhance customer satisfaction and benefit other road-users.

I can confirm that the Company is actively committed to further developing C-ITS services for public transport users and to improving operational efficiency and, should Reading be successful in this bid, Reading Buses will use its available funding to support innovation and to deliver enhanced bus technologies and customer-facing services as part of the scheme.

The value of this funding is £30,000 to the end of the financial year 2017/18.

Yours sincerely

Tony Pettitt
Chief Finance & Information Officer
