What outcomes will the change achieve and for whom?
Adoption of a Framework will contribute to the creation of a mixed-use quarter in Reading town centre

Who are the main stakeholders and what do they want?
Developers/landowners, the public and community groups. All parties would like to see the site put into active use and to provide much-needed housing in Central Reading.

Assess whether an EIA is Relevant

How does your proposal relate to eliminating discrimination; promoting equality of opportunity; promoting good community relations?

Do you have evidence or reason to believe that some (racial, disability, gender, sexuality, age and religious belief) groups may be affected differently than others? (Think about your monitoring information, research, national data/reports etc)
Yes ☐  No ☒

Is there already public concern about potentially discriminatory practices/impact or could there be? Think about your complaints, consultation, feedback.
Yes ☐  No ☒
If the answer is Yes to any of the above you need to do an Equality Impact Assessment.

If No you **MUST** complete this statement

An Equality Impact Assessment is not relevant because the Framework is not expected to have equality impacts on particular groups.
